AIRCRAFT INSTRUMENTS AND...

MORE INSTRUMENT TECHNICIANS NEEDED!

The Future of Aviation is NOW! We know not where we will fly, nor how fast, or in what kind of strange craft —but we DO KNOW THAT INSTRUMENTS WILL ALWAYS BE NECESSARY TO FLIGHT. Aircraft instrument work has become increasingly important. Many **instrument men** now employed by airlines, air freight, air freight services, aircraft and instrument manufacturers, and repair stations received their training at American Schools of Aircraft Instruments.

AMERICA'S FIRST — As the pioneer aircraft instrument school in this country, American Schools of Aircraft Instruments offer the world's finest training developed in close collaboration with airlines, aircraft and instrument manufacturers, and various governmental departments.

APPROVED FOR VETERANS—Many are now in Training. A.S.A.I. is approved by National Council of Technical Schools.

Learn the "know how" to perform this important, necessary work in a vital, growing industry. Become an AIRCRAFT INSTRUMENT TECHNICIAN. Write today for FREE BOOKLET.

Send the coupon below, NOW, for complete details on A.S.A.I. courses. Learn about this important, well paid career work. MAIL THE COUPON. NO OBLIGATION.

TIME DOES ACTUALLY FLY . . .
And so we can now announce that
AIRPORT OPERATION
and
MANAGEMENT

By Charles A. Zweng, is expected off the press September 1. The pre-publication price is $4.00 until October 30th when the regular price of $4.50 becomes effective. Remember this is a "First Edition" and the number is of course limited. All phases of Airport Operation fully covered. Illustrated. Comes in DeLuxe binding.

The "Timepiece" shown in the cut is (A Longines-Wittnauer Product) and known as the Weems navigation watch. It has a rotary verge ring which permits setting the sweep second-setting hand to the exact second—thus eliminating the "blind minute." Steel case, Price $43.75 Federal tax included.
